

Coil Connection for HT Leads For use with Sagem/Valeo/Bosch/Siemans/Lucas coils

These coil packs, when used with the MBE ECU, use a wasted spark system. Both cylinders spark at the same time. That is why you can install 1 & 4 on either post & the same for 2 & 3.

*****Please note*** This is not used on the standard Corsa coil**

Please be aware that Technical Support involving our Technicians is chargeable
